MARKED AND CROPPED-We should judge by the following extract from the Washing ton correspondence of the Louisville the present Administration:

Henceforward, the hired libellers for certain Eastern Whig papers, who have been insulting and abusing Mr. Clay and Mr.

Webster, in letters from this city, will be good crops, and but few wagon as tame and as harmless as blind kittens, and country. New wheat is to hear them talk now, about public hotels and on the Avenue, you would think they were the warmest friends he ever had RIVER ITEMS. in the world. They have all, however, been marked and cropped by bublic opinion B. Wightman runs daily to Ironton, and been marked and cropped by bublic opinion and nothing they can say, one way or the other will hereafter exercise any influence in community. Most of them have been Locofocos, then Tyler men, and lastly, "no party Whigs," their breeches pockets being the lundamental principle that generally gives direction to their thoughts, and action to their pens. And it is to such seris as these Messers. Clay, Webster, Cooper, and others owe much of the vituperation and that has been heaped upon them.

A WORD TO MECHANICS AND INVEN-TORS .- Are the mechanics and inventors of machinery, &c., in Ohio, generally aware of the advantages that may result to them from the exhibition of specimens of their skill at the State Fair, where they will be seen by tens of thousands of intelligent men, besides being noticed and commended [if worthy] by the judges?

PHILADELPHIA. July 20.

On Thursday we were visited by a terrible hurricane, commencing at 10 o'clock, at night, and continuing till 6 o'clock next morning. The wind blew awfully and the rain fell in torrents, almost deluged the city. Sign boards, scaffolds, trees, &c., were thrown in every direction. Houses were unroofed and chimneys blown down. Several fine ships were driven ashore and one steamboat was lost. About thirty sloops schooners and small boats were sunk in the Deleware river. A great amount of damage was done on the Schuylkill.

The storm was the most destructive known since the spring of 1838. Several lives were lost. The telegraph lines were blown down in every direction, and we had no communication with any point yester-

THE SIAMESE TWINS NOT DEAD .- The agents in New York of Chang and Eng, the Siamese Twins, have received a letter from those distinguished personages which gives the lie direct to their reported death, now going the rounds of the newpapers. The letter is dated from their residence in North Carolina, and states that they are in their being in the land of the living and not occupying a French grave.

We learn from the Meigs Co. Telegraph, that the jewelry store of Mr. G. Racine, of Pomeroy, was broken and robbed of watches and jewelry to the amount of \$350, during the night of the 17th.

Three female passengers on board the California brig Oriental, at New York, thrashed the captain, blacking his eyes and scratching his face, because he did not give them satisfactory reasons for the non-sailing of the vessel. They were fined \$5 each.

SOUTHERN DIRECT TRADE WITH EU-ROPE. - The Portsmouth (Va.) Pilot says that the subject of direct trade to Europe by means of a steam ocean navigation company from the South, is eliciting the utmost enthusiasm among all classes, and especially those who are able and willing to subscribe liberally to the stock. It is informed that the planters and others in the James River country are determined that this great enterprise shall go on.

The silver and gold currency of Austria has entirely disappeared. Where it has gone and how soon it will return, no one pretends to guess The present currency is gulder bills, which are cut in half and quarters, to suit the convenience of the traders.

# BRANDRETH'S PILLS ARE A SURE CURE FOR

INFLUENZA. This complaint has become so frequent that there are few pursons who have not had it several times. It is a kind of a malignant contagious cold attended with much fever, and great prostration of health. So soon as possible, swallow six or eight Pills; a large dose is absented. lutely necessary to relieve the brain, that organ appearing to suffer greatly in this complaint. When they have operated well, put your feet and legs in hot water, or take a hot bath. Be sure and be purged, before you use any means of increasing the circulation, or your life may be the forfeit. Now go to bed; and, when in bed take two more pills and some hot boneset tes, catnip, or balm or balsam, or some water gruel-any of these warm drinks will answer, and which may be left to choice—either of them will help to restore insensible perspiration and this method will generally cure. Should however, the patient, after the pills and this after treatment, not be better in the morning, let him take another six, eight or ten pills more according to the urgency of symptoms, and the warm drinks, and foot or general bath at night. My experience has shown me that the third day generally finds the patient well, when this plan has been adopted in the begia-ning. But in any event the continuance of the treatment is the best that can be adopted, whether it takes one day or twenty to effect the cure. However bad the head may be, never let the blood be drawn or leeches applied; we want all the blood we have. Instead of losing this "life of our flesh," let us take more pills which will take the death principle from us, leaving our blood relieved and ready to rally all its life powers for our restoration so soon as the purgation has left it free to effect this ob-ject.
